

DESIGN A FLOWER POT

Learn about flowers and what it takes to keep them healthy by coloring your own flower pot! Flowers are made of different parts — petals, stems, and leaves. To live, they need soil, sunlight, air, and water to stay alive.

MATERIALS YOU'LL NEED:

- Flower and flower pot cutout (attached)
- Coloring materials (crayons, pencils, pens)
- Scissors
- Glue

BEGIN! FOLLOW THESE STEPS:

STEP 1

Color your flower parts and draw pictures of what a plant needs to grow in the petals!

STEP 2

Cut out all pieces.

STEP 3

Glue your flower parts together.

STEP 4

Decorate the flower pot!
